REIGN SANITARY NAPKINS

All around the world, women are excited to experience Reign Sanitary Napkins. Reign pads are infused with Nobel Prize Winning "Graphene" material. The Graphene infused strip may provide various health benefits that may improve circulation, promote cell activity, support a healthy metabolism, and may help inhibit harmful bacteria growth, allowing females to feel comfortable and most of all dry. Reign has five variations: Ultra Thin Panty Liner for everyday use, Very Light Panty Liner with wings and light absorbency, Moderate, Heavy, and Super Heavy Overnight Flow.

The silent suffering stops with the voice of our campaign.

- Our mission is to raise awareness by informing both teens and women globally who suffer in silence with pain, heavy bleeding, unhealthy menstrual cycles and the potential toxicity of tampon use.
- Our goal is to bring light to a taboo subject of female cycles, that has silenced females from all cultures for many years.
- Our platform will educate females on the important roles of keeping a healthy cycle by encouraging physical activity, healthy eating, and safe product choices.
